Dear Members,

On March 17, 2016, ANA-NY and NYONEL co-sponsored a webinar on *Public Policy Update: Nurse Licensure Compact*. It was a program to educate nurses in New York State about the National Council of State Boards of Nursing’s *Nurse Licensure Compact* (NLC).

The Learning Outcomes included:

1. Describe the parameters of the NCSBN Nurse Licensure Compact.
2. Discuss the pros/cons related to implementation of the NLC and the advantages/disadvantages to nurses and patients in a “compact” state.
3. Discuss the requirements for a state to adopt the NLC.
4. Analyze the likely resolution of potential issues related to state differences in licensure and professional misconduct criteria.
5. Differentiate between the NLC and the APRN Compact.

While the live webinar was an approved continuing nursing education activity, this archived copy cannot be used to obtain CE. There is no charge for listening or viewing the recorded webinar. We hope that you take advantage of this opportunity.
